Sir:

In response to the Office Action mailed on January 9, 2002,
please amend the present application as follows:

In the specification:

Please replace the paragraph beginning at page 2, line 6, with
the following rewritten paragraph:

-- In the depicted embodiment, the initiator subassembly
comprises a header assembly 20 hermetically attached (by through-
weld 61) to a can 65 loaded with an output pyrotechnic charge 82.
The header assembly 20 in turn consists of a header, a bridgewire
70 that is welded to the header, and an ignition pyrotechnic charge
